Psychiatrist/Director of the Carolina Partners Clinical Internship Program

Carolina Partners in Mental HealthCare, PLLC is seeking a licensed psychiatrist for a directorship position at our Main Raleigh office in NC. Carolina Partners is the largest private multi-disciplinary mental health group practice in North Carolina, with fourteen treatment sites and 70 partners.

The Carolina Partners Clinical Internship Program will work with a rotation of nurses and PAs who wish to expand their working knowledge of psychiatric medicine and care. As a Director, you will supervise and oversee the interns, collaborate with local Universities to recruit and train interns, and build a training program with the Medical Director and Executive Office of Carolina Partners. In addition to income you'll receive as a clinician in private practice, you'll also receive substantial supervision fees for your work with members of the program. This is a unique opportunity to enjoy a healthy private practice and a well-compensated directorship simultaneously!

Carolina Partners is a partnership where accomplished, self-directed psychiatrists or "Doctors without Bosses" as we like to call them, can substantially multiply their present success clinically, economically, and personally. Simply put, a Carolina Partners psychiatrist will establish a thriving private practice and earn a great income. In addition, our physicians are able to:

1. Build an investment portfolio: We provide each partner with multiple internal (within the Carolina Partners Group of companies) investment opportunities, including real estate, joint ventures and more.
2. Initiate entrepreneurial projects: We actively encourage and support doctors who wish to pursue entrepreneurial projects and businesses, such as the program described herein. We will invest capital in our partners' worthy ideas and provide the necessary business infrastructure. As a Director, you'll share in any profits directly.

If interested, visit us on the web at carolinapartners.com. Send CV and letter of interest to Stan Monroe at:
